JAMES BRADLEY

Software Engineer

SUMMARY

Flexible, detail-oriented, software engineer with a passion for building efficient solutions to complex problems. Proven track record of creating and implementing successful front and back end web applications. Looking to bring my skills to a tech company with global reach.

WORK EXPERIENCE

Software Engineer at 100devs

January 2022 — Present

- Collaborated with a team of developers to build modern and responsive web applications using best practices
- Built semantically structured full stack web applications
- Applied agile methodologies like SCRUM for project management

Recent Projects:

Hip Coffee Co (Fullstack Web App) – Cashier can take coffee orders from customers with their names. Baristas can login to the app and see orders that have been made, mark them as complete. Orders that have been completed will note which barista completed the order.

Happy Notes (Fullstack Web App) – Users can login to their profile and find their list of notes. They can add new notes through an input, which they can then edit or delete all notes in their profile.

100Hours Project –

Other Projects: Small Lakes Casino Virtual Slot Machine, Greenville StarGazers Society APOD Web App with NASA API integration, On-demand background color changer for Partnered Twitch streamer, and many more

Full Stack Web Developer at James Bradley Consulting | Greenville, SC

March 2022 — Present

Created full stack web applications and static websites for different clients across small and medium size businesses. Also, consulted on SEO and social media strategy. Some clients included:

Actual Client –

PCT and Medical Scribe at Prisma Health | Greenville, SC

August 2020 — Present

Assisted patients at Greenville Memorial Hospital with activities of daily living and fall prevention. Accompanied physician during patient exams to transcribe assessments.

Logistics Consultant at C-P-S Automotive LP | Greenville, SC

January 2017 — January 2020

Coordinated development and implementation of returnable packaging solutions for BMW's automotive components.
